**NAAC Accredited Grade 'A'**

## **BEST PRACTICES**

1. Title of practice: Structured Module of Curriculum Delivery
2. Goal: To provide timely, effective teaching to the students throughout the academic year
3. Context:- Primary function of the institute is to provide quality education using curriculum prescribed by the university. While complying to this function, it is necessary that the curriculum delivery be efficient enough to promote competency based skill training and acquisition. Keeping this in mind, a structured module of Curriculum delivery is the need of time and our institute has developed it.
4. The practice: A module is prepared in consultation with all teaching staff and experts in the field of Physiotherapy education. It includes time bound teaching and learning activities from day 1 till end of university examination, internal assessment examination schedules, clinical posting details, project work timeline, and a small unit of co curricular activities. This is provided to all teachers and students at the beginning of the academic year. Year coordinators ensure that this module is executed as it is with maximum 10 percent deviation.
5. Evidence of success :-The module is successful in terms of accuracy of its implementation, hassle free delivery with no last minute additions or deletions. Difficult to quantify the impact in quantitative data, the evidence of success is seen in more organized approach by all teachers in its implementation.

## **2ND BEST PRACTICE**

1. Title of practice : Out Reach Program- Project Paridhi
2. Goal: To provide community based services to community dwelling individuals who are otherwise unable to avail hospital based services.
3. The context: Rural location of institute poses many challenges. One of the most important challenge is non-adherence to treatment for various reasons including poor transport service and lack of awareness about Physiotherapy.
4. The practice: Project Paridhi encompasses the spectrum of services provided by 4 clinical departments. The services include Screening camp, ANC PNC clinic, Diabetes clinic, Stroke rehabilitation registry Falls clinic targeting different age group of patients and various conditions. A programe is prepared at the beginning of academic year and details are circulated with all.
5. Evidence of success: Quantitatively number of visits and camps at different places have increased over a period of time, number of patients treated by each unit have increased reflecting increase in numbers all over the stats. Students are benefitted by getting major opportunity to handle patients, to treat them.
