some subjects needs reallocation

I'm satisfied

We need more practical based education

certain unnessesaary subject should be excluded

subjects not related to professional pratice should not be added for the syallabus and university exams

subject should be revived and updated

Nothing

satsfied

In third year for out department ask questions related to physiotherapy not related to drugs

Improve the pattern of college exam terminal and premilary examination pattern is than 4 formatives

N.A

recollation of some subjects needed

All mention issues are perfect so no need to improve

No suggestions

/

|

/

Satisfied

NA

..

Some subject feels unnecessary ,while other that are more useful that should be added

All are great but some subject may have more importance like psychology, surgery to improve assessment of pt students

It's a yes

Satisfied with subjects included in each year.

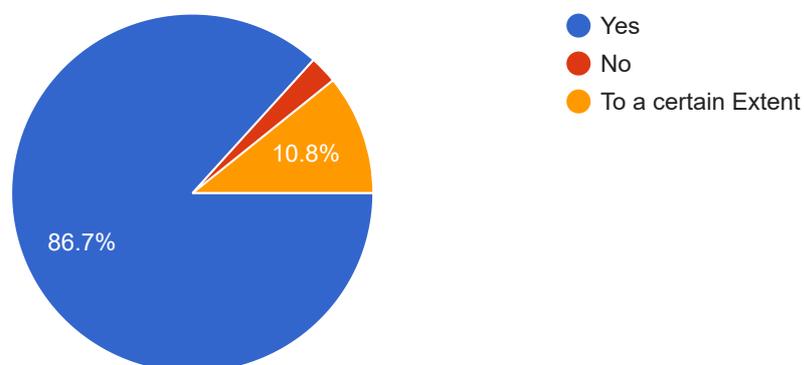

Give practical based knowledge more rather than focusing on theory

My answer is yes

9. Are you satisfied with the pattern of University system of examination ?

 Copy

120 responses

10. If no , Please provide suggestions as to how we can improve it:

120 responses

.

satisfied

Yes

No

-

,

Nothing

I'm satisfied

instead of writing theory paper of long duration it should focus on skill development and practices

;

make exams more skill based

satisfied

Take practical exam immediately after theory and ask questions from pyq

N.A

No need

,

the examination system needs to restructuring to include continuous and skill based evaluations

Satisfied

NA

..

On global level we see more of MCQ based exams that should be included in curriculum

It's yes

Satisfied.

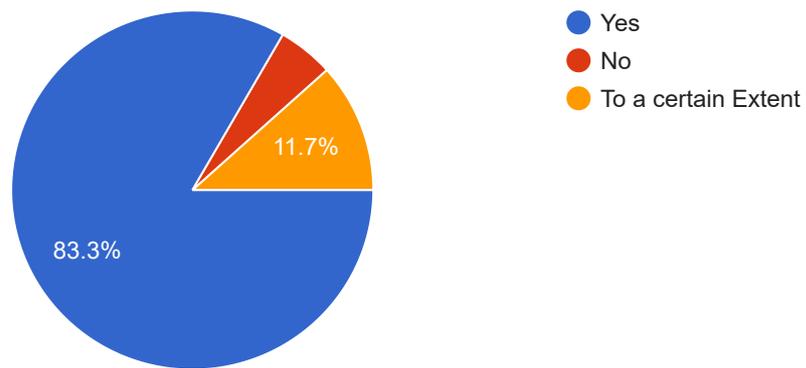

My answer is yes

satisfied

11. Are you satisfied with the pattern of Internal Assessment System of Examination ?

satisfied

No

-

Yes

/

NA

practical and skill development should be more than theory examination

Nothing

Can be better

Ask university questions in internal exams

2023 batch pattern is better than giving 4 foramtives.

No need

should follow more consistent and competency based approach

The internal subjects which are not in the university exam should not only conduct theory papers but practicals too.

,

Satisfied

This pattern get less internal marks that's why final university result will be less

I'm satisfied

..

It doesn't provide any virtue on improvement as after every exam we should get to know this is where you need to improve but we are just left with marks

It's a yes

Satisfied with pattern.

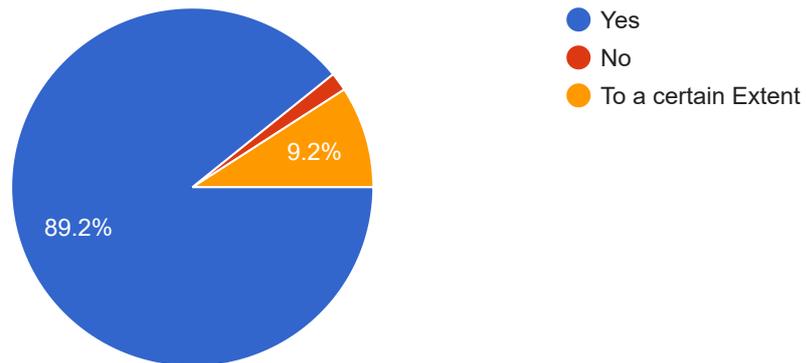

My answer is yes

satisfied s

13. Do you think that the textbooks recommended by MUHS are helpful?

21. Additional Comments

120 responses

.

overall its good

/

-

No

NA

overall satisfied

need more practical session

I'm satisfied

satisfied

no additional comments

subjects should be reviwed and updated

Need for more extra curricular activities in the college. Like sports competition, talent hunt etc...

need more time in opd session

No comments

more praticals needed

4.5 years duration is long but not optimally strutcured

Yes

Complete syllabus in the given period, instead of arranging tests and seminars, give extra time for practical skills and avoid PG students from teaching practical. It makes us confused because everyone teaches different techniques and don't waste students' time in paperwork during preparatory leaves of exams.

Satisfied with all things

need recollection of some subjects

Thanks

as first and second year student we should also have some basic idea about research and methodology

internal assessment should follow more consistent and competency based approach

need for updated syllabus content

focus on hands'on technique is needed

Overall it's excellent

improve clinical posing

overall its good

,

more practical session needed

No comments

need more practical session

..

make exams more skill based

curriculum should include more practical session

There's a lot of space to improve like a patient should be self-sufficient to diagnose the condition under the umbrella of a patient, serious look after clinical session, more exposure to latest global advanced in patient much more

Good institute

This program is helpful for gaining knowledge.

more emphasis should be placed on practical skills

im satisfied

Please focus on practical based exposure rather than theory knowledge

At the time of paper distribution teacher should tell student one by one where it is a wrong in theory paper and what is wrong in the practical the lagging in actually therinology or in a physically practice or lack of practice for various practicals

It's good

curriculum needs more updated teaching meathods includind simulation training ,case based learning and interactive session

satisfied with overall muhs cirriculum

Perfect...nothing additional needed

need more hands on practice

curriculum should include more practical session .

Bioengineering topics to be added to Musculoskeletal and Community Physiotherapy subjects or to be added to university exam

Nil

16. Any other suggestion about the content and delivery of curriculum. (Please be specific)

25 responses

No

practical exposure should be improved

theory and practical sessions should be well balanced

more case based learning

regular feedback session between student and teacher can help modify teaching method

/

No

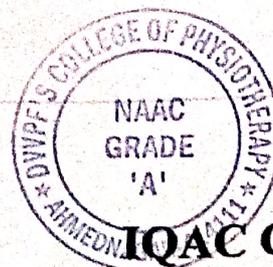

should focus more on updated ,evidence based practice

curriculum would be more effective if it includes updated ,interactive sessions

more community based physiotherapy exposure

Too many betterment exams can affect the quality of the students.

Cancel the same topics from 3 rd & 4 th yr
